

## **VETERANS DAY 2009**

Dear Tyler Enfield,

Tyler I am writing this letter in honor of you because it is Veterans Day. You are the closest family member that I know that served in the Air Force.

I know that you recently went to Germany and you worked on plans there. I also know that you now have a baby boy whose name is Zarik and a wife who is my oldest sister, Ana.

I don't actually know all that much of what you do besides work on a refueling air plane for the Air Force and I would like to talk to you about that sometime. I would also like to know if you were scared when you went to Germany or were you sad or a little of both. Even though you personally don't put yourself in harms way, you help keep other people safe.

So I just wanted to say thank you for all that you have done for this country and all that you have done for me as my first bother-in-law.

Sincerely,

Thomas Douthit
