\*Please have child's name on all supplies and out of packages before first day of school.

# Kindergarten

I am excited that your child is going to be a part of my kindergarten classroom. In order to start the school year off right, here are some things that your child should work on to help ease the transition into kindergarten.

- Identifies own name in writing
- Attempts to print own first name—only first letter Uppercase!
- Knows first and last name
- Listen to and answer questions about a story
- Familiar with all letters of the alphabet and sounds
- Knows age and birthday
- Recognizes basic colors
- Recognizes basic shapes: circle, square, diamond, oval, rectangle, and triangle
- Counts to 15 and recognizes numerals 0-10
- Can count objects
- Basic understanding of rhyming words
- Follows simple 2-3 step directions
- Pays attention and comprehends stories being read
- Experience with cutting and safely handling scissors
- Button and zip clothes
- Control pencil and crayon well
- Expresses self verbally
- Shares with others
- Cooperatively participates in small group activities
- Takes a responsibility for personal belongings
- Understands positional and opposition words
- Can take care of toilet needs independently
- Dresses self
- Maintains self-control

I look forward to meeting you and your child soon!

Sincerely,

Mrs. Rieger
