

\*CAT SHEET\*

This form is designed to correct a particular daily work assignment, already graded and recorded, that the student deems "catastrophic." That is to say that the student recognizes they have a grade that has critically impacted their overall 9 weeks grade and wants to return the grade to some level of acceptability. The student must recognize, also, that it is very unlikely that any catastrophic score can be redeemed entirely but huge improvements CAN be made. The following terms will apply.
